Brig. General Andrew J. Goodpaster
Staff Secretary
The White House

Dear Andy:

The President on several occasions has expressed interest in the population problem in China, India, etc., and as of possible interest, I enclose a report which is several months old written by an Australian medical authority who visited China. I thought that the marked paragraph on page 53 might be of some interest.

Despite the measures taken, I am somewhat skeptical as to their real effectiveness.

Sincerely,

SIGNED

Allen W. Dulles
Director
